

A red felt puppet with large white eyes and a yellow beak is shown in profile, looking towards the right. It is sitting on a blue rectangular base. The background is a bright blue sky with scattered white clouds. A small white bird is visible in the distance. A hand is visible on the left side, holding the puppet. A black text box with white text is overlaid on the image.

Sharing the Inspiration with Robot Kits!

Why you should make your robot into a
kit
instead of repairing your beloved robot
for the 1000th time

please
repair me!
ting!

Robots start out as small contraptions

that do one thing

and they work.

(yes, actually work)

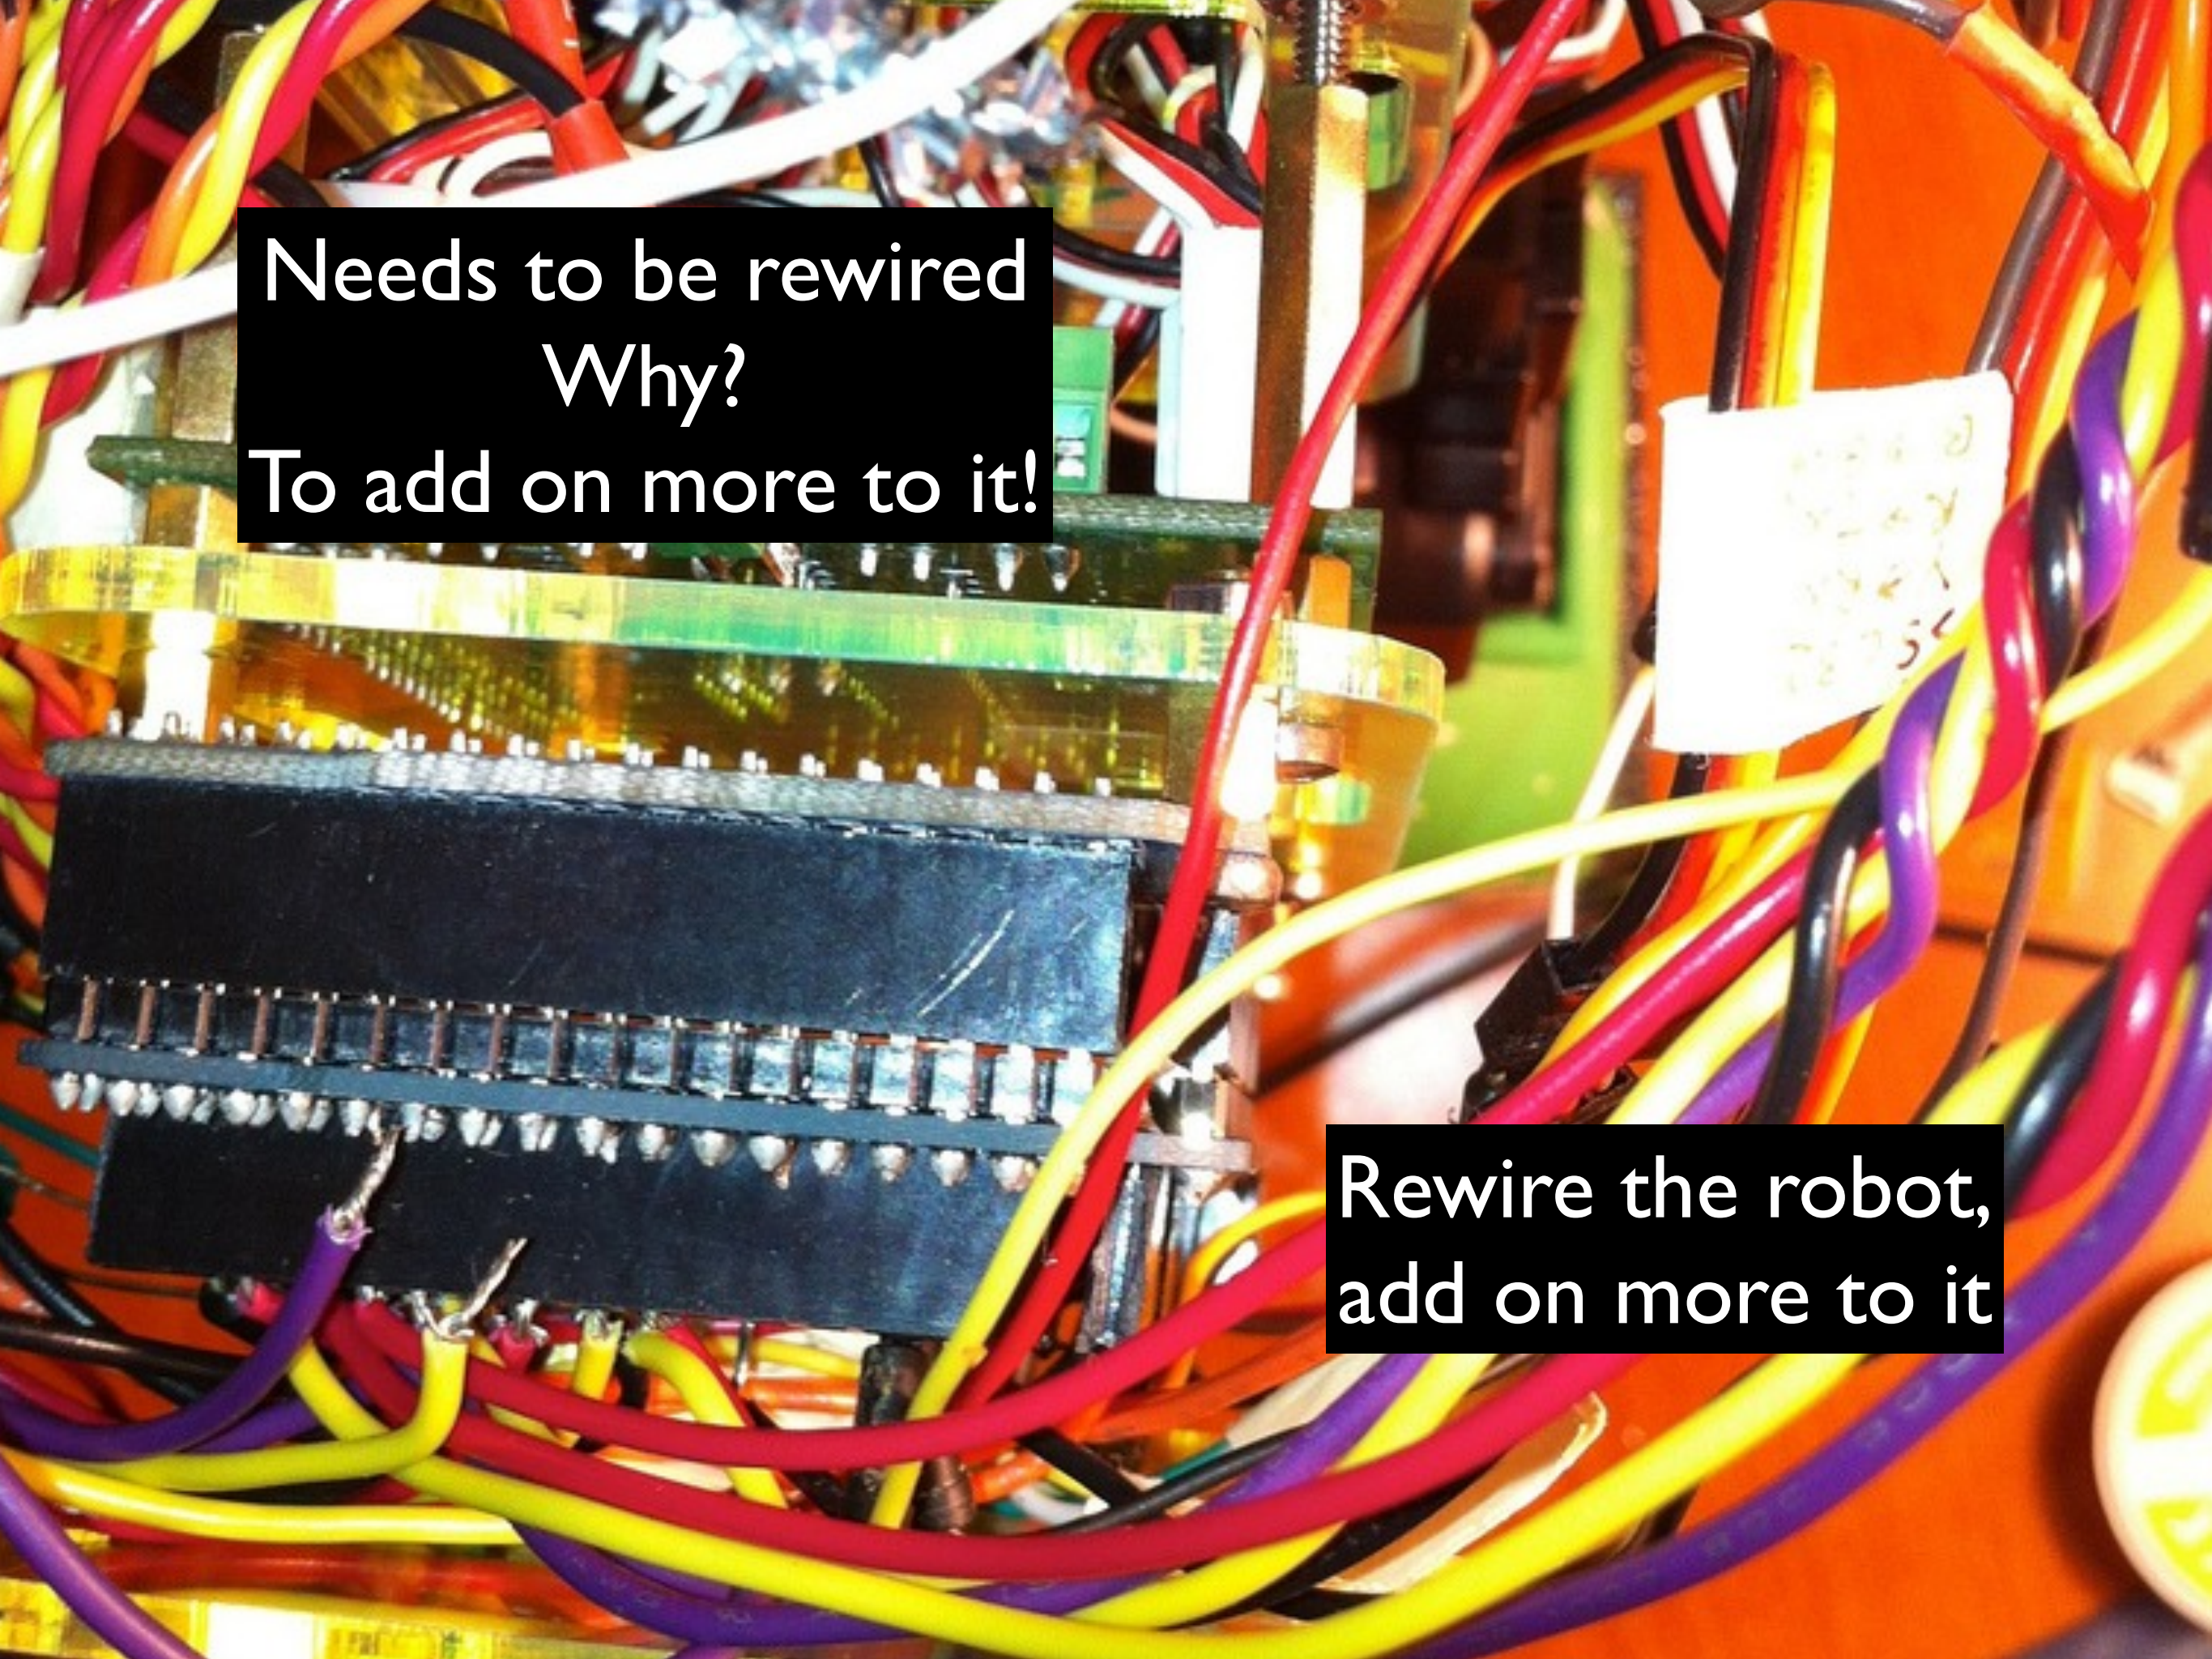

Then we add on more to it

it breaks,

we fix it!

owch!
my legs!

Needs to be rewired
Why?
To add on more to it!

Rewire the robot,
add on more to it

A robot with a grey body, red and blue accents, and two glowing blue spherical eyes is dancing in a room. The room is lit with colorful lights, including a large disco ball with multi-colored spots. The robot is wearing green shoes and has its arms raised in a dance pose.

Sweet! It's finally done!
And works just great!

Robot dance party!

Document robot,
people want to build it!
Cool!

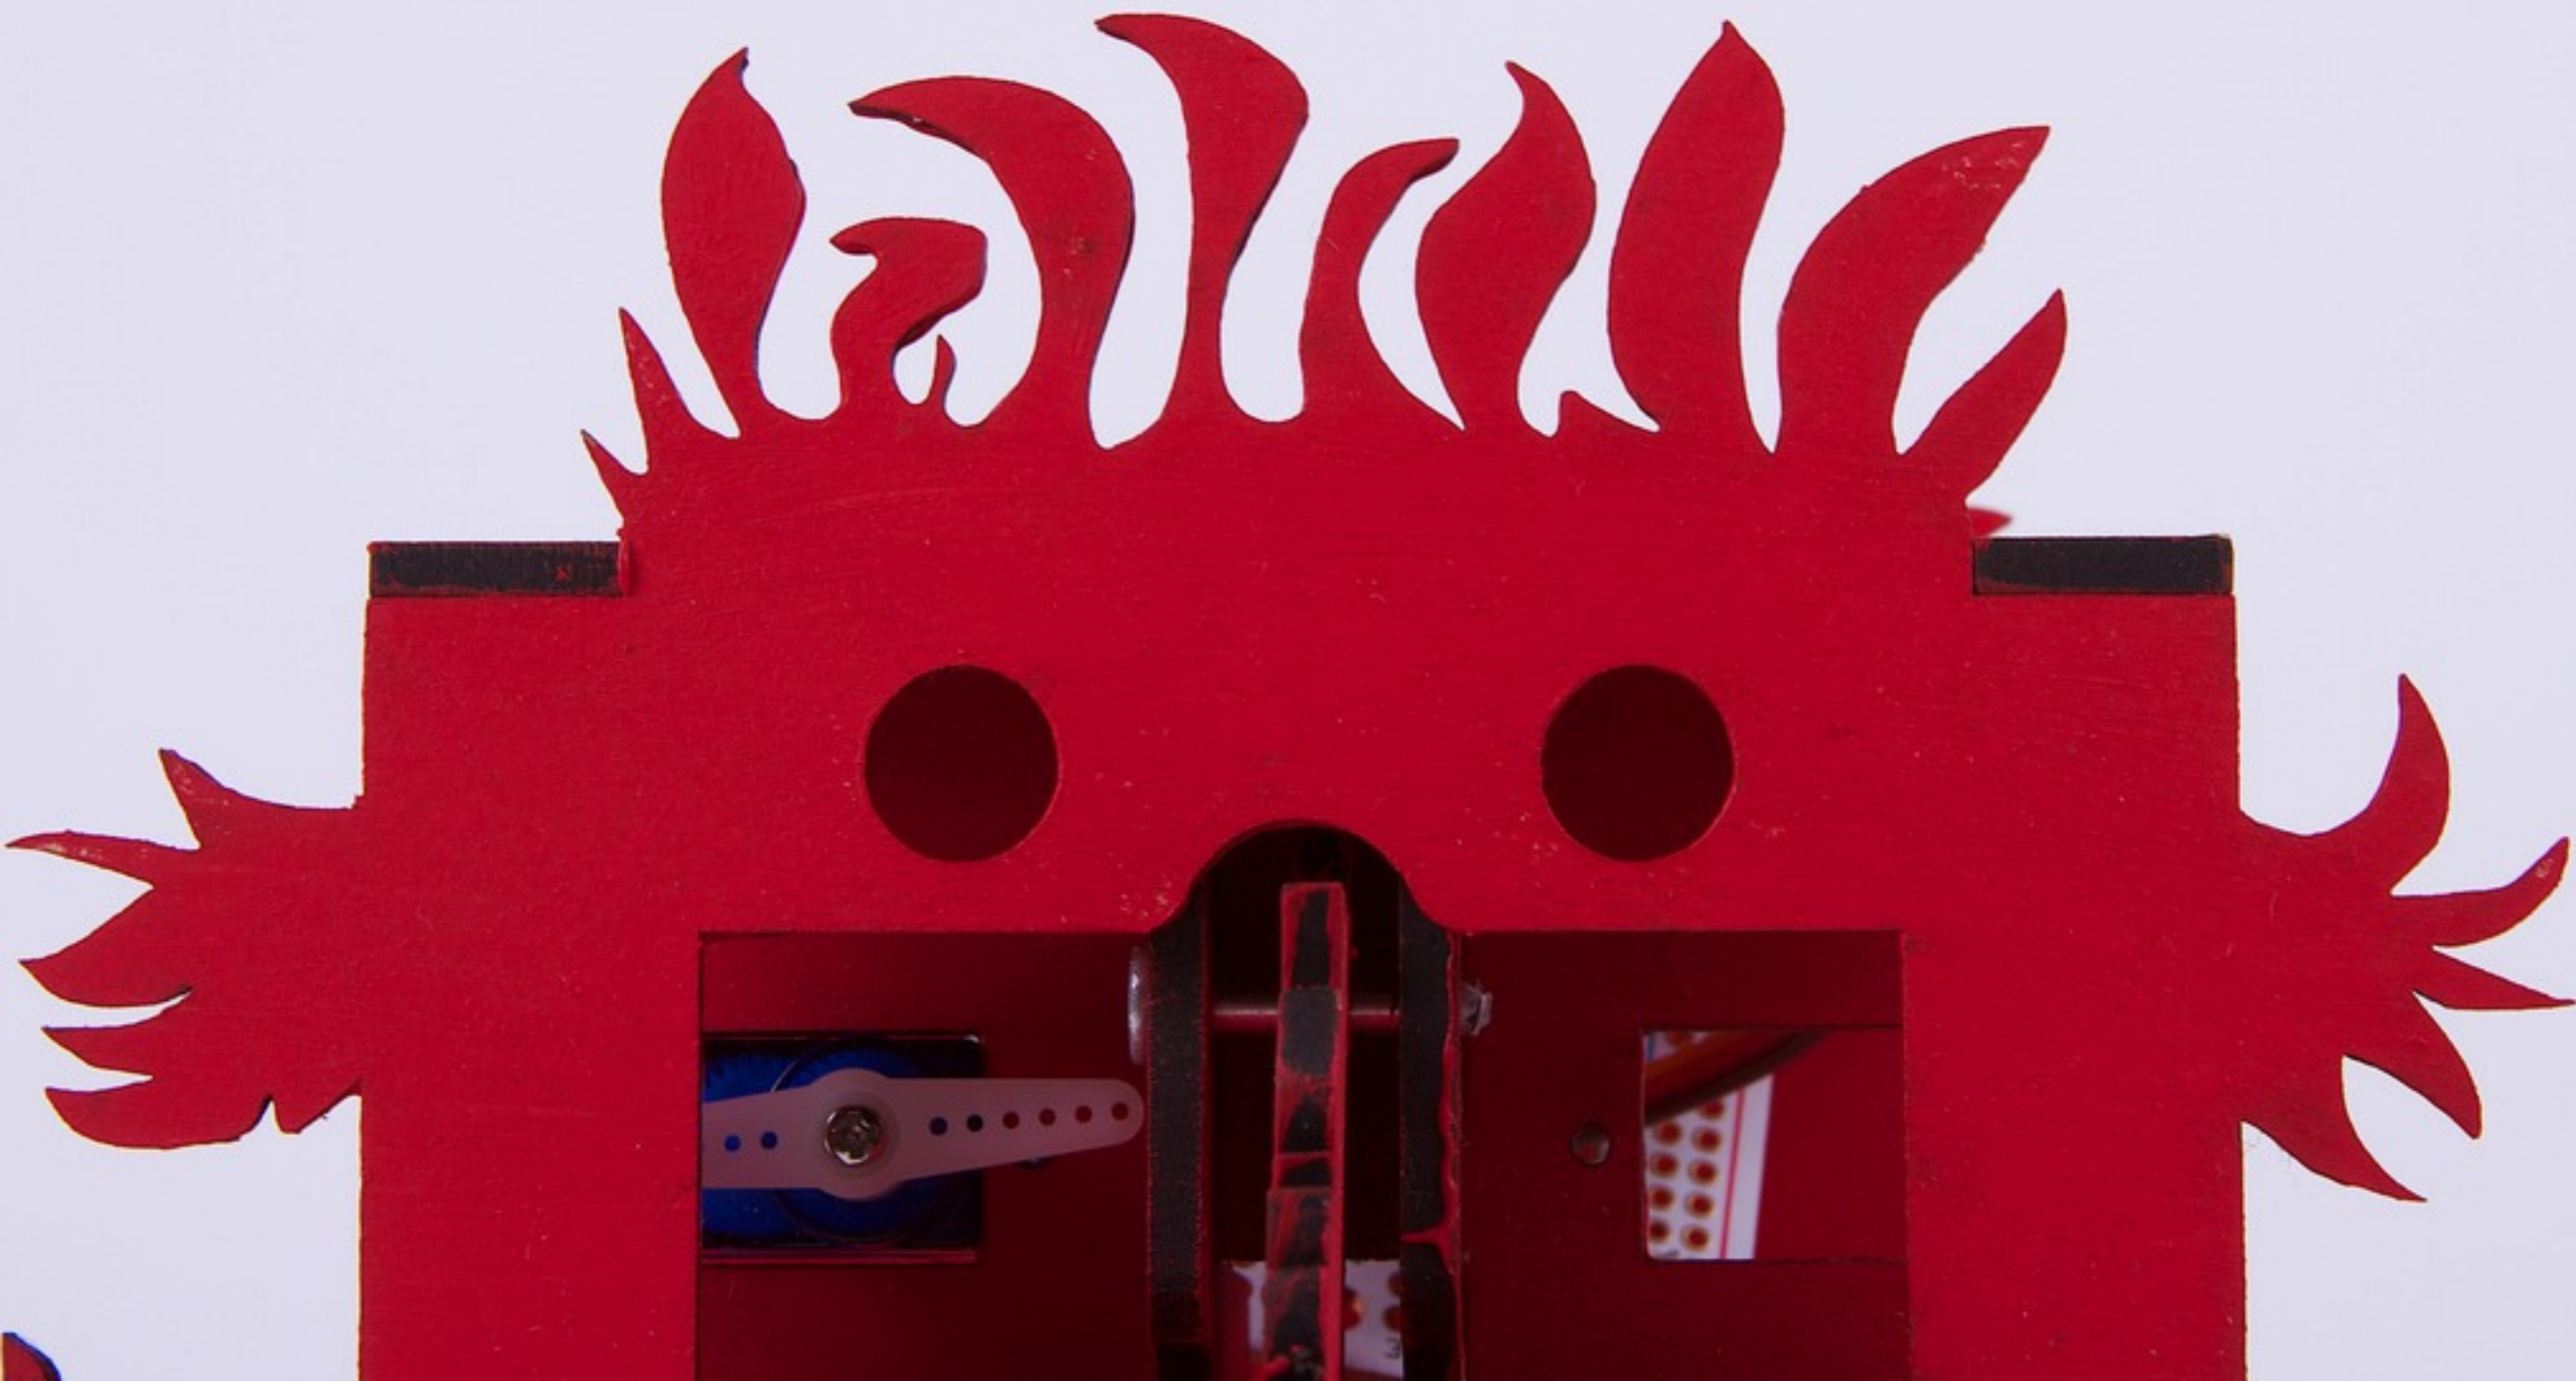

They try, but get stuck because it is too complicated

aww! stuck in a maze again!

Do two things:
1) Help them
2) Create a simpler version

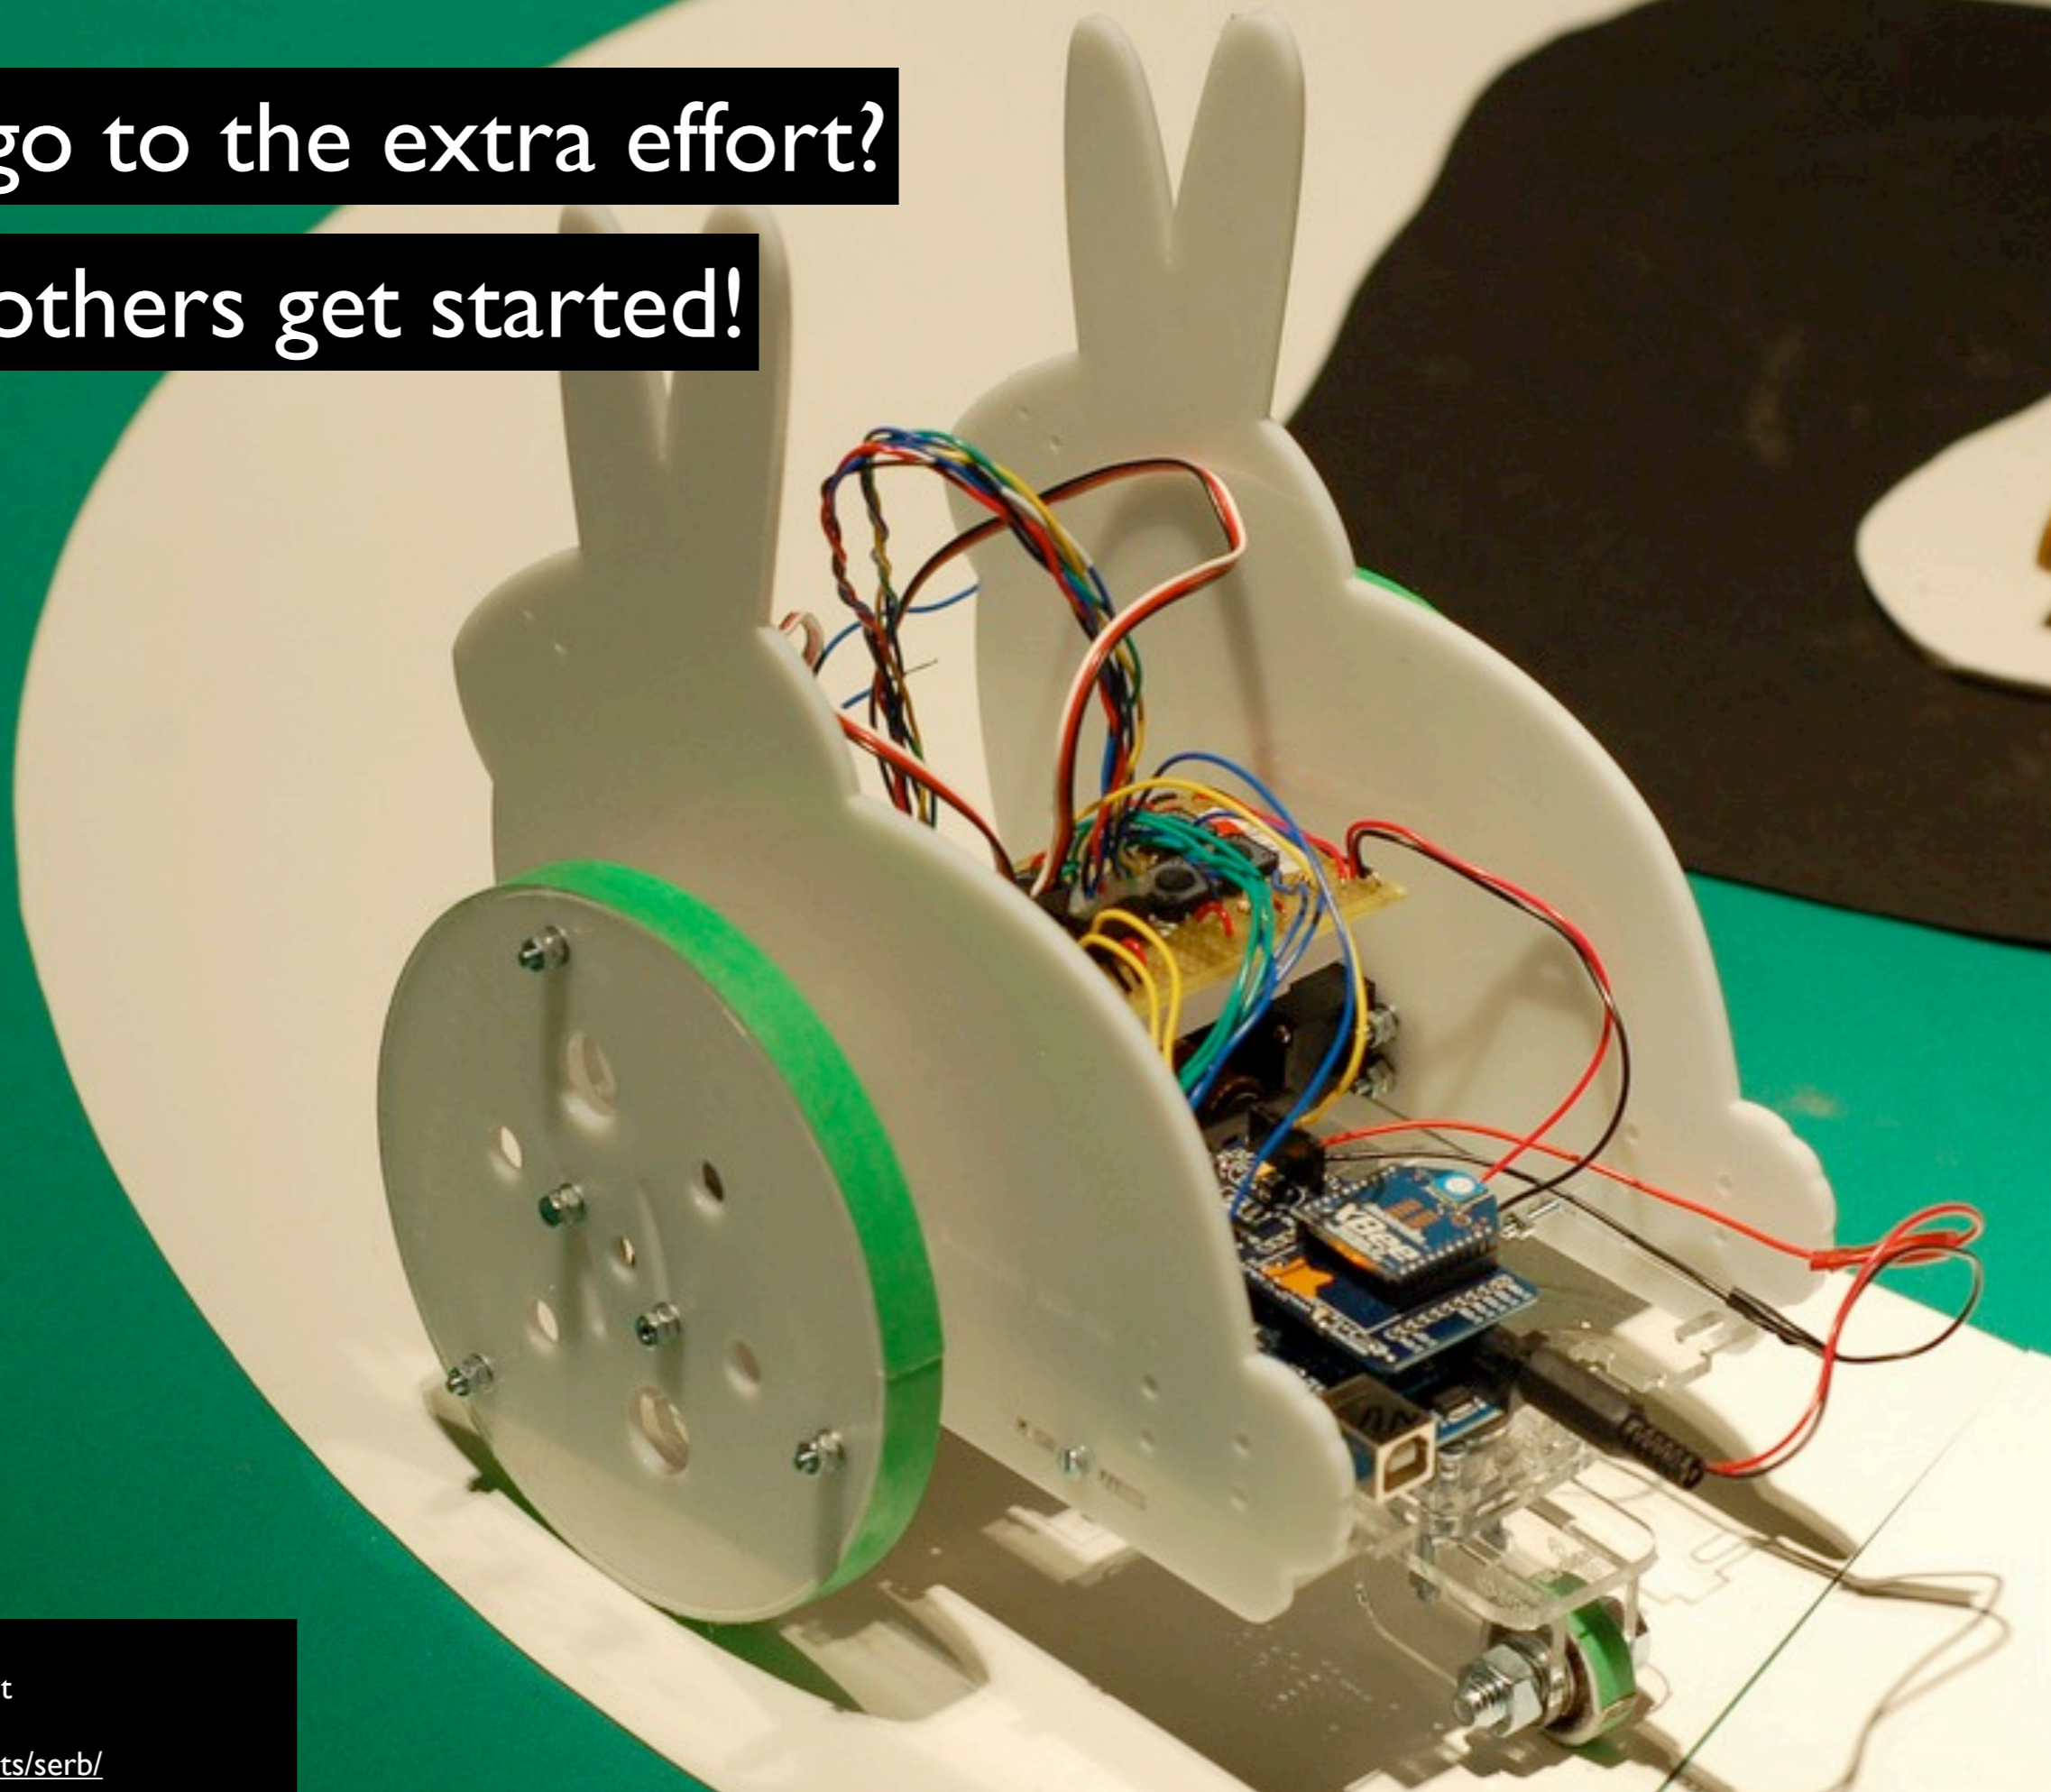

idea!

Make the simplified version a kit

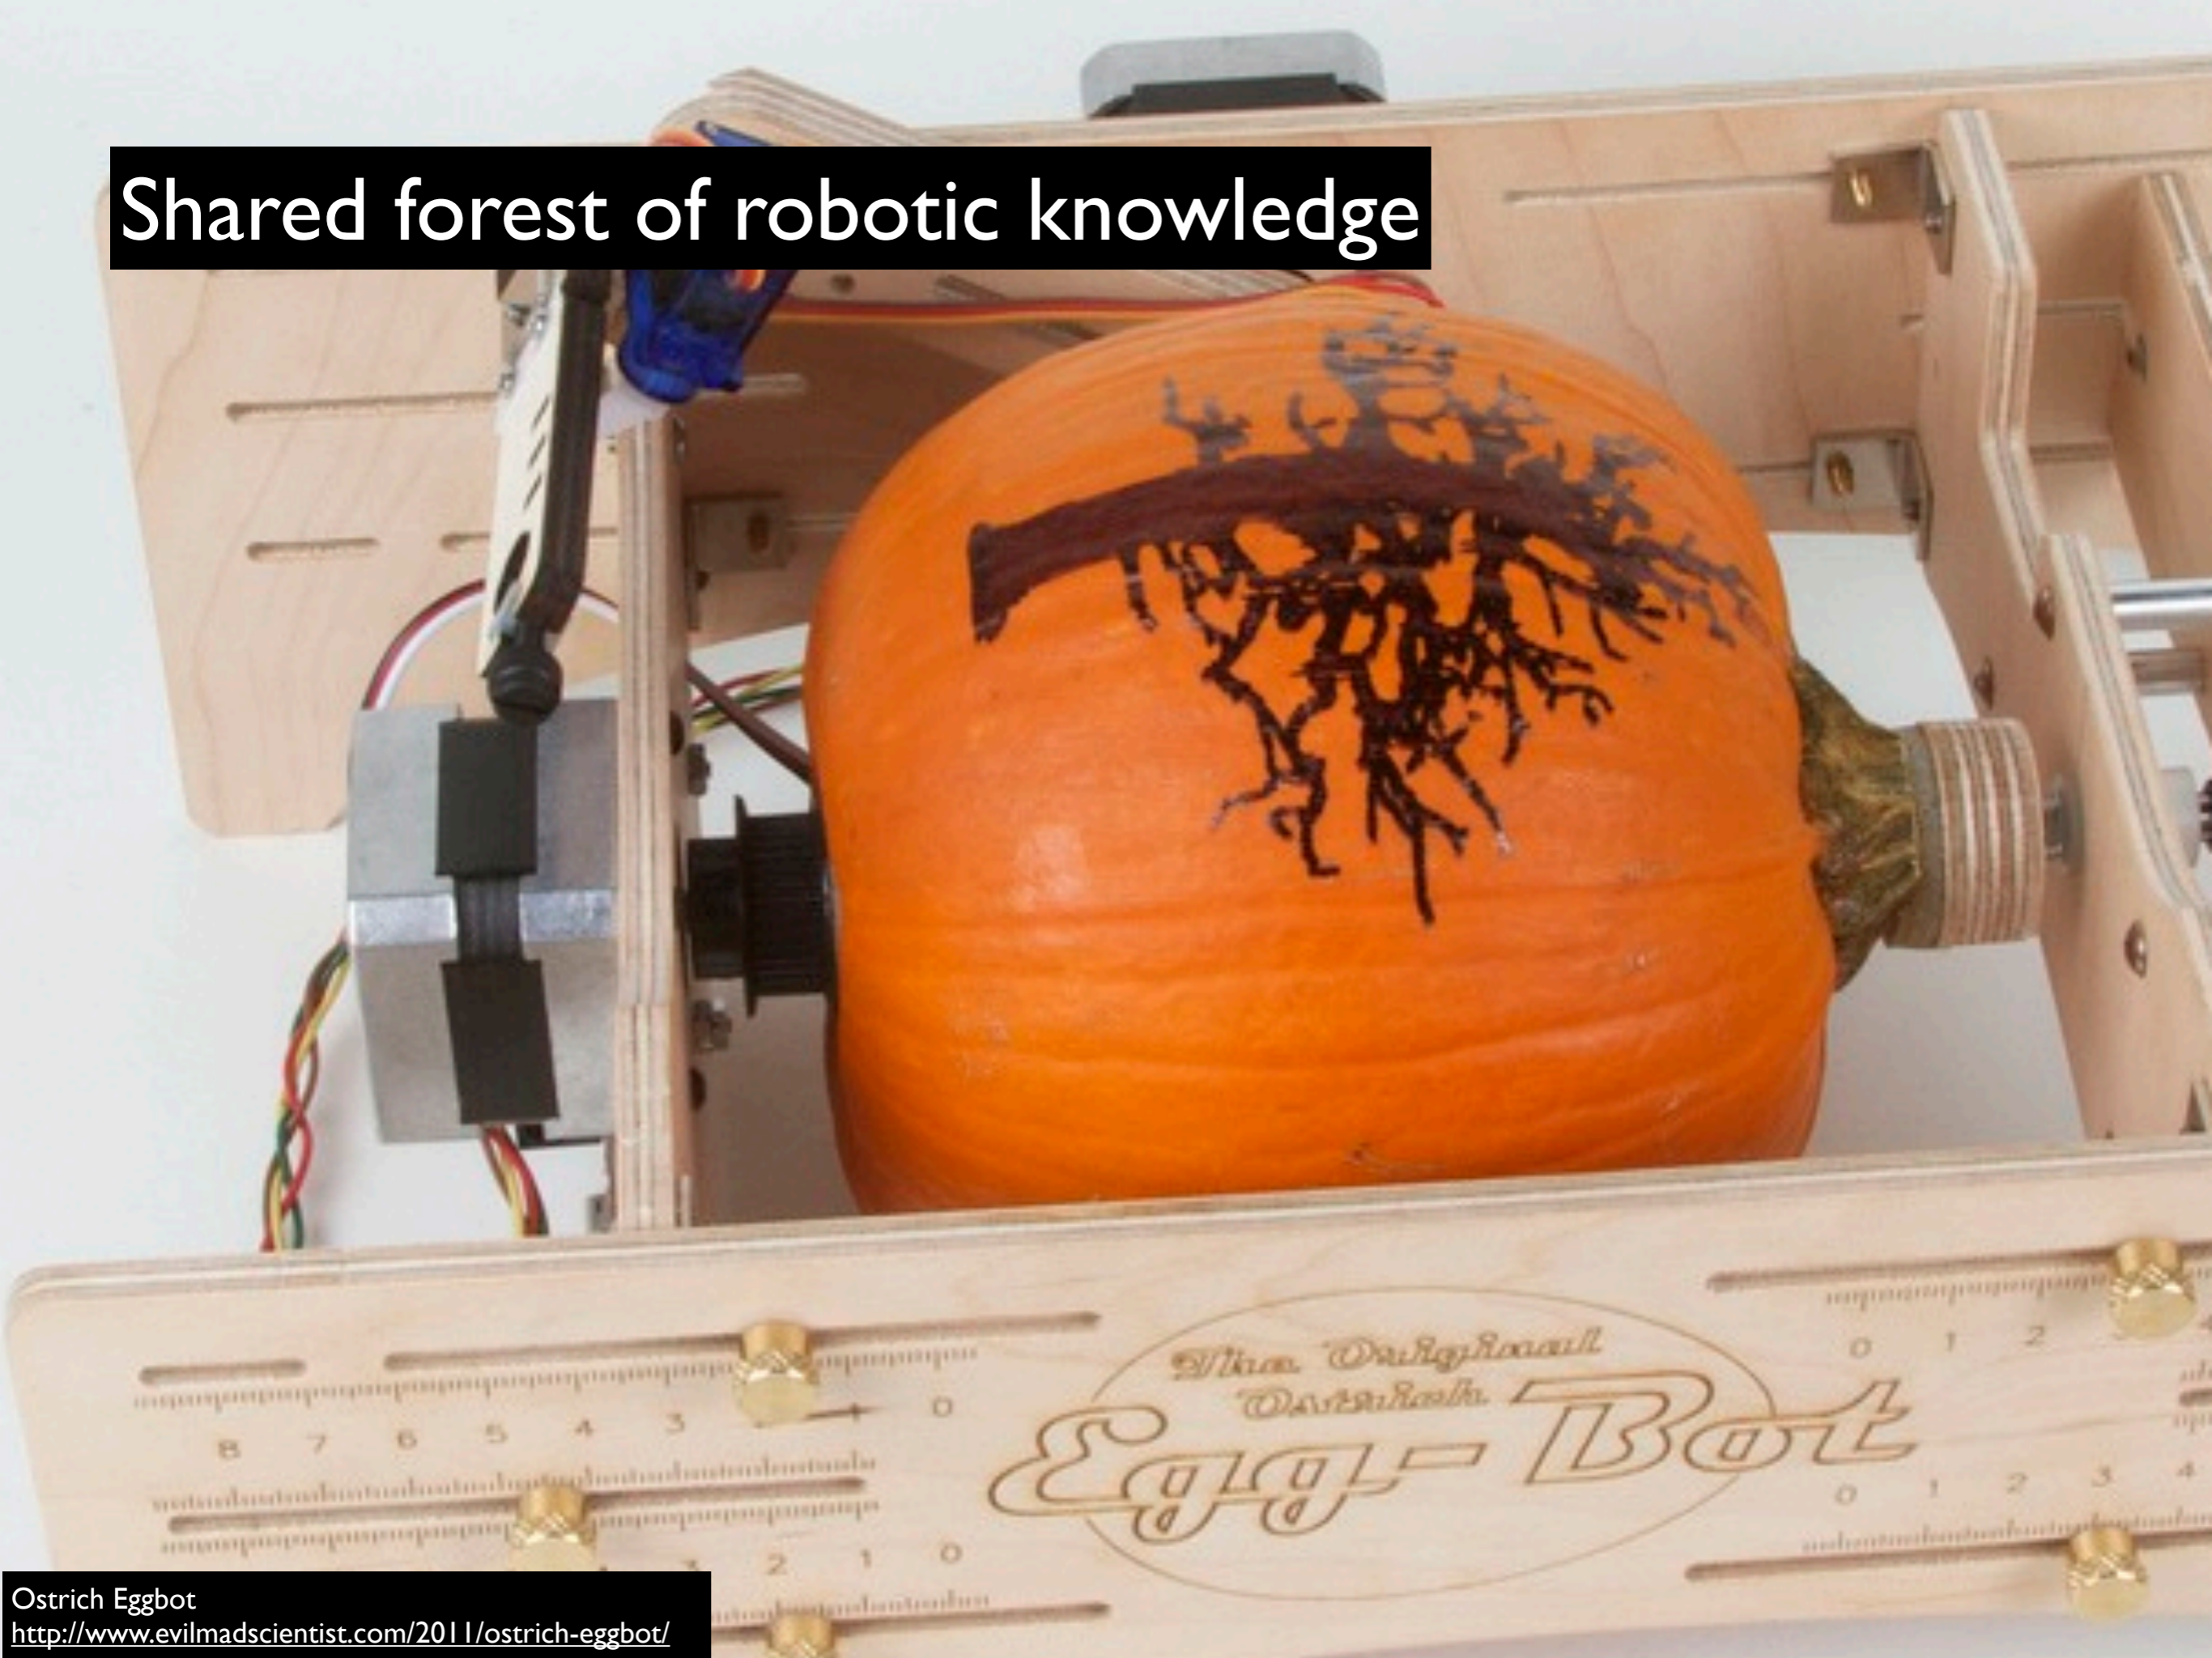

Why go to the extra effort?

Help others get started!

Shared forest of robotic knowledge

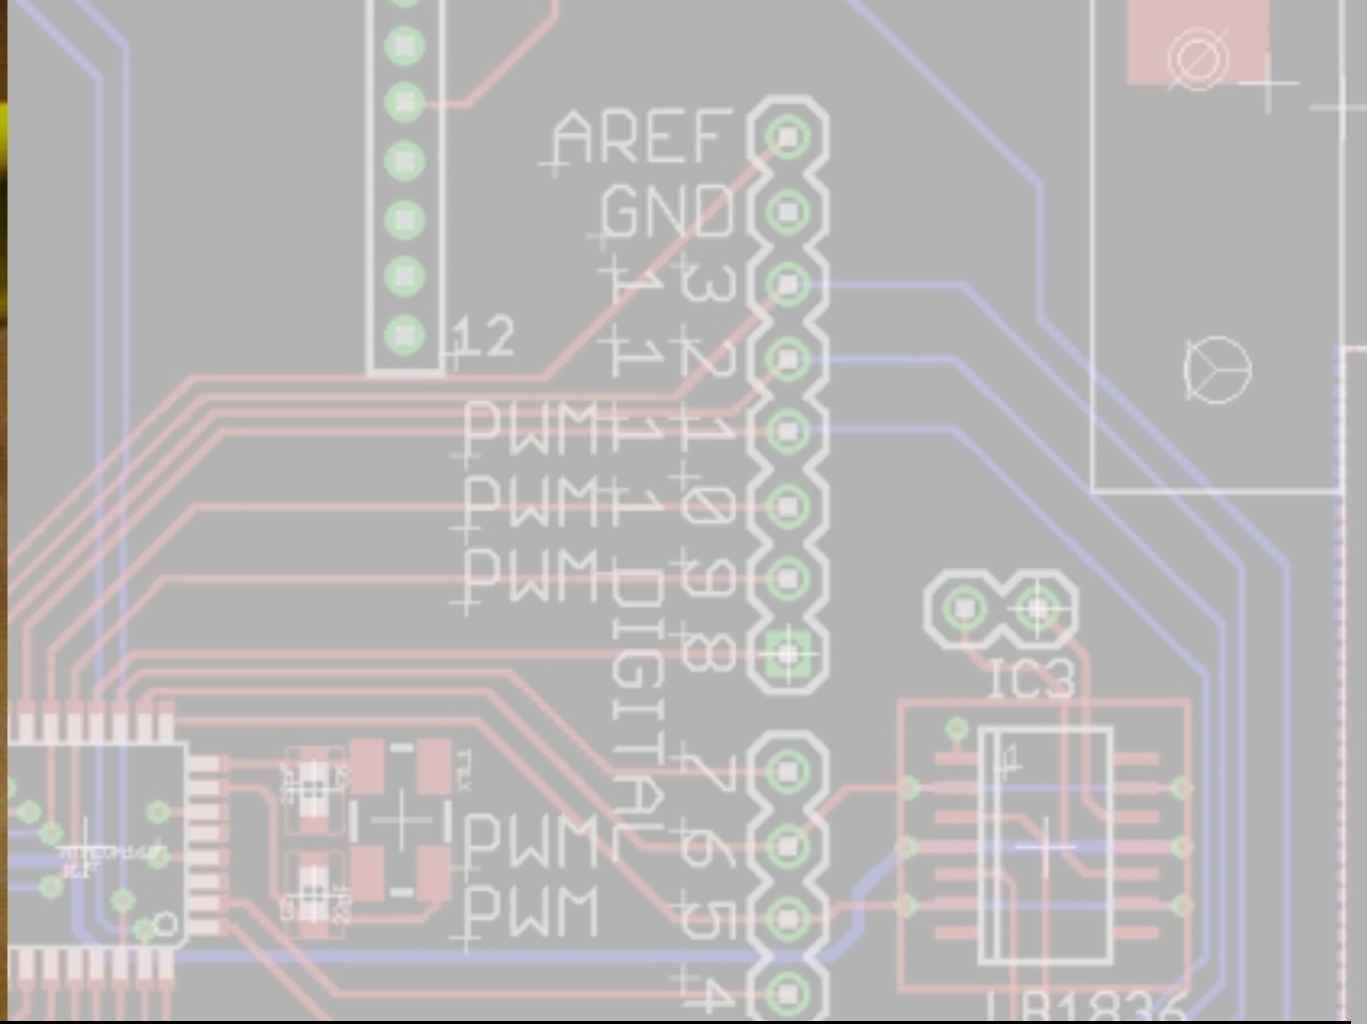

NEW PEOPLE?!?!
SWAAAAAARM!

Robot kit as a stepping stone
