

The FCC and You

DON'T PANIC

AUTHORIZATION

Myth #1:

My product is a
“development tool”,
so it is exempt.

Myth #2:

I'm not using radio
so there's nothing I
need to do.

This device complies with Part 15 of the FCC Rules. Operation is subject to the condition that this device does not cause harmful interference.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

 **Trade name**
Model number

Myth #3:

We're too small an outfit to need to worry about this.

Myth #4:

We can't afford it
anyway, so why
worry about it?

Myth #5:

I'll just make it a kit,
and that'll fix
everything!
